

COUNTERFEITING MOLDS LOCATED

Government Officers Arrest Two Mexicans; Many Bad Coins Circulate.

Cement molds for American coins set in wooden frames and made with considerable craft were discovered Wednesday afternoon by officers of the federal government in an adobe house on South Santa Fe street between Ninth and Tenth streets. Remundo Garcia and his wife, Marcus Escobedo, were placed under arrest on a charge of counterfeiting and a further examination of the place and the person of the man and woman revealed 14 brand new half-dollars of the 1914 denomination, 14 quarters of

the 1908 quarter denomination; and a quantity of 1912 nickels. Garcia and his wife were arraigned before Commissioner E. R. Oliver Thursday morning and their preliminary hearing was set for Saturday at 10 o'clock. The man and woman were placed under \$1000 bonds each, which neither could give, and until their hearing, both were remanded to the county jail.

The outfit, it was stated by the government officials, originated in Chihuahua city, from which Garcia and his wife came to El Paso several months ago. It was an ingenious collection of tools, all hand made and revealing skill and address. In an attic potter's wheel, a charcoal stove was a portion of a bubbling silver, while silver wire in its molten form was found in irregular molds.

The coins after being molded in the cement-wooden frames were given the milled edges in a vice-like device. The passing of the coins has baffled the authorities for some time. The slot machines upon the other side of the street were said to have been cluttered with the counterfeit nickels. The street car company also accumulated a large number of the five-cent pieces, while the merchants in the lower part of El Paso were deluged with the 25 and 50-cent coins.

The raid was made by Shelby Boyce, United States secret service agent; L. J. Ayers, special agent of the treasury department; Capt. Joe Stowe, of the police department; and A. C. Varelle, one of the city detectives.

"Park Bench Clinics" Are Menace to Health, Declares Charity Worker in Appeal

Phoenix, Ariz., March 22.—"Park bench clinics" are a menace to the health of Phoenix, declares Miss Christine Gilchrist, manager of the Associated Charities, in a public appeal for assistance in breaking up the practice.

"These bench clinics are held hourly on the court house, city hall and federal plaza," said Miss Gilchrist. "At these clinics one can hear the most wonderful theories of health and disease advanced, and there is no doubt a peculiar kink in most people's minds, especially if they are sick, that impels them to pay more attention to the uneducated advice of a stranger than to what their own physicians tell them. We have to fight the results of this unprofessional 'doctoring' every day."

AN EFFORT TO STOCK ARIZONA WITH RING-NECKED PHEASANTS

Phoenix, Ariz., March 22.—A number of ring-necked pheasants have recently been received by the Arizona Game and Fish Commission. The distribution of the birds for the southern portion of the state is in charge of the commission. The birds are being distributed to the various game preserves in the state.

The ring-necked pheasants are exceptionally desirable game birds. Though native of Asia, they have been introduced in this state with marked success in most cases. In addition to their value as game birds, they are also being distributed to the various game preserves in the state.

The birds are being distributed to the various game preserves in the state. The commission is making every effort to stock the state with these beautiful birds.

BEAUTIFUL HAIR. THICK, WAVY, FREE FROM DANDRUFF.

Draw a moist cloth through hair and double its beauty at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after an application of Dandurine. Also try this—moisten a cloth with a little Dandurine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Dandurine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—grow, but really new hair growing all over the scalp.

Dandurine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, charming, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knott's Dandurine from any drug store or toilet counter and try it as directed.—Adv.

HERRERA DENIES BEING IN REVOLT

Mexican General Sends a Message Declaring His Loyalty to Carranza.

Gen. Gavira received at noon a telegram from Gen. Luis Herrera dated at Chihuahua, in which he denies personally having become a reactionary. The telegram reads:

"Your telegram of yesterday received. Deny in my name emphatically the rumor that the reactionaries have circulated in San Antonio, Tex., saying that I have gone over to Villa. On the contrary, I am ready to fight him as energetically as possible."

HEARING IN COUNTY BOUNDARY DISPUTE TO BE IN TUCSON

Phoenix, Ariz., March 22.—Final testimony in the Yuma-Maricopa county boundary dispute case will be heard at Tucson in a few days by John H. Campbell, the referee appointed by the supreme court.

This case has been dragging along a number of years. Yuma county claims that old surveys were incorrect and that the boundary is really four miles east of where it has long been supposed to be. That strip is crossed by the Southern Pacific and Arizona & California railroad, but little other property is included therein.
